

August 2006 Update

To our Providers Partners:

EHP, Inc. is enjoying continued success in 2006. Most recently we've seen very positive growth in the new fully insured product partnership with Significa Insurance Group. We are also seeing significant growth in EHP's network throughout South Central Pennsylvania as EHP positions itself for continued growth for years to come.

EHP welcomes a new **Third Party Administrator, Managed Benefit Plans, Inc. (MBP)**. MBP is headquartered in Hackettstown, New Jersey and brings EHP another high quality claims administrator with clients throughout the region. As a provider you should have received a notice from us about this new relationship. The payer listing available on this website has been updated with the applicable claims and service information. Please contact us for more information.

On Wednesday, December 13th, **EHP will be hosting a provider education program, "Practice Performance Audits"** presented by Deborah Grider. Deborah has over 27 years of experience in practice management, insurance, coding, reimbursement education and consulting and is the author of *Principles of ICD-9-CM Coding* and *Coding with Modifiers*. Please contact Rebecca Williams at 717.735.8149 for more information.

EHP has recently updated its immunization and behavioral health services fee schedules and codes. **This represents a net increase to reimbursements for both immunizations and behavioral health services.** For more information please contact Renée Connor at 717.735.8132.

If you have additional questions, please contact us. As always, thank you for your ongoing support and participation!

Very Sincerely,

David R. Smith
CEO
