

August 29, 2005

Dear Facility Manager:

EHP, Inc. is pleased to announce that it will be offering a new PPO network under the fictitious name "EHP Significa". The EHP Significa network will include EHP, Inc. hospital, facility, and ancillary service providers and the Highmark state-wide professional services provider network. The EHP Significa network will be available throughout the entire state of Pennsylvania with product options for both self funded and fully insured customers.

Through EHP Significa, EHP will continue to meet all of the obligations and terms of your EHP, Inc. hospital, facility or ancillary contract. You will continue to see the EHP logo on the card. EHP Significa products will be administered exclusively by Erin Group Administrators. Please note that the majority of Erin Group's current self-funded business with EHP will remain under the traditional EHP PPO network product.

The addition of this product will help EHP serve its mission as a competitive and preferred alternative product for health care purchasers. Through this product expansion we will be in a position to deliver increased patient volume to your facility.

We look forward to this new opportunity and remain committed to high quality service in our relationship to your organization. If you have any questions please contact us at the numbers below.
