

# EHP, INC. PROVIDER ALERT – IMPORTANT NOTICE

September 9, 2005

RE: EHP Significa Network

Dear Practice Manager:

EHP, Inc. is pleased to announce that we will be offering a new PPO network under the name "**EHP Significa**". The EHP Significa network will include EHP, Inc. hospital, facility, and ancillary service providers and a third party comprehensive state-wide professional services network. The EHP Significa network will be available in every county throughout the state of Pennsylvania with options for both self funded and fully insured customers.

The EHP Significa network will be accessed only by Erin Group Administrators (EGA) for self funded clients and Significa Insurance Group (Significa) for fully insured business. EGA (when using the EHP Significa network) and Significa will not access EHP's physician agreements. In these cases your contract with the comprehensive state wide professional services network will apply. However, if you do not have an agreement with the state wide professional services network, then your EHP contract will apply to the EHP Significa network.

If the EHP Significa logo (below) or Significa name is on an ID card, then you should expect your reimbursement to be based on that of your agreement with the third party comprehensive state wide professional services network. Please set your patient accounting system up accordingly. This change does not affect your agreements or reimbursement with EHP's traditional network. As EGA will be administering the Significa insured products, the claims address for all EHP Significa members will be EGA's. For your convenience a payer listing is attached.

The addition of this network will help EHP serve its mission as a competitive and preferred alternative product for health care purchasers. We look forward to this new opportunity and remain committed to high quality service in our relationship to your organization. Please contact us at the numbers below with any questions.
